BEST-OF-BREED OR FAMILY PET

HELP THEM ACHIEVE OPTIMUM HEALTH, ENERGY, AND VITALITY

Poly-MVA for Pets® is the first in a revolutionary new class of nutraceuticals that will revitalize your pet and promote a happier, healthier life. Numerous veterinarians and researchers have observed many beneficial results, including:

- Increased energy*
- Helps support and sustain optimum health*
- Helps combat abnormal cell growth*
- Superior antioxidant*
- Support mobility and pain-related discomfort
- Studies show safety and efficacy*
- Enhances your pet's quality of life

A survey conducted by a leading veterinary oncologist revealed that 86% of the respondents felt that Poly-MVA for Pets improved their animal's quality of life.

POLY-MVA FOR PETS:®

THE FOUNDATION FOR OPTIMUM HEALTH

Your pet is a loyal, loving member of your family who deserves the best. Regular veterinary care will help ensure that they get all that is necessary to protect them from illness. Poly-MVA for Pets® offers a powerful new way to extend that protection.

The key to the remarkable protective properties of Poly-MVA for Pets® lies in its active ingredient, the patented Palladium Lipoic Complex.™ This unique chemical polymer enhances cellular function in healthy cells, increasing energy and helping

DNA

THE NEXT ADVANCE IN NUTRITION™

WHAT YOU CAN EXPECT FROM POLY-MVA FOR PETS:®

Poly-MVA for Pets® is a powerful new nutraceutical that optimizes the function of cells, tissues and organs by enhancing energy production. By supporting, and therefore improving, cellular function, the body can respond better. The first in a new class of nutraceuticals known as Palladium Lipoic Complexes,™ **Poly-MVA for Pets®** is a powerful yet safe way to protect your pet's health, increase his energy, and ensure that he stays healthy and strong for many years to come.

In addition to enhancing the body's ability to produce energy, **Poly-MVA for Pets®** provides support to the body's organs in removing harmful substances from the bloodstream and supporting the immune system.* While most pets will benefit, active pets and show animals in particular will benefit from improved energy, greater alertness and attentiveness, and overall enhanced health.*

■ INCREASED STAMINA

The majority of veterinarians and animal owners have reported a dramatic increase in energy, vitality and alertness in pets using **Poly-MVA for Pets®** within just a few days of starting the product.

■ HELPS YOUR PET ACHIEVE AND SUSTAIN OPTIMUM HEALTH

Numerous veterinarians as well as animal owners have observed that **Poly-MVA for Pets®** is the best way to help your pet achieve optimum health. Laboratory studies as well as observation have shown that animals that continue taking **Poly-MVA for Pets®** live healthier, more energetic and active lives, with fewer health problems as they age.*

A powerful tool in prevention of abnormal (anaerobic) cell growth, **Poly-MVA for Pets®** has been clinically shown to interfere with the electrical function and energy production of abnormal cells. In animals with cancer, **Poly-MVA for Pets®** has been shown to support the body's systems and provide nutritional support for proper cell growth. In animals that are genetically prone to developing cancer, **Poly-MVA for Pets®** can provide superior support and cellular protection.*

■ PROVIDES SUPPORT FOR PAIN-RELATED DISCOMFORTS AND SOME GENETICALLY INHERITED CONDITIONS

Many pets suffer from arthritis and other joint-related disorders as they get older. Purebred animals are often prone to a variety of problems as they age. **Poly-MVA for Pets®** may support joint-related discomfort. Additionally, particularly in purebred show animals who tend to have weaker immune systems, **Poly-MVA for Pets®** can serve as a powerful means of maintaining and enhancing your beloved animal companion's health and well-being.

■ EXTREMELY SAFE

Toxicity and safety tests have shown that **Poly-MVA for Pets®** is extraordinarily safe. Animals given acute dosages 50 times higher than the highest recommended dosage experience no side effects or other negative symptoms.

■ ENHANCES QUALITY OF LIFE FOR YOUR PET

By increasing vitality your pet will have more energy and be more alert. **Poly-MVA for Pets®** ability to protect healthy cells and increase their energy production ensures your pet will live a longer, happier, healthier life with the help of **Poly-MVA for Pets®**.

Poly-MVA for Pets® is the first product to come out of the new field of electrogenetics, which studies and describes the energy requirements, energy exchanges, and electrical communication that allow DNA signaling and communication in our cells. While an in-depth explanation involves interactions that bridge the fields of chemistry, physics and biology, the mechanism of **Poly-MVA for Pets®** can also be explained in more common physiological terms.

Poly-MVA for Pets® maintains and enhances the function of mitochondria, the main source of energy within cells. In healthy cells using aerobic respiration, **Poly-MVA for Pets®** not only protects these cells from damage, but enhances their function and action. The clinical effects of **Poly-MVA for Pets®** have been proven in studies with hundreds of laboratory animals and in veterinary oncology hospitals and health centers nationwide.
